Note: Q.29-37 and 40 should be reported as a *USA Today*/Gallup poll.

Results are based on telephone interviews conducted November 4-7, 2010 with a random sample of 1,021—adults, aged 18+, living in the continental U.S., selected using random-digit dial sampling.

For results based on the total sample of national adults, one can say with 95% confidence that the margin of error is ±4 percentage points.

For results based on the sample of 511—national adults in Form A and 510—national adults in Form B, the maximum margins of sampling error are ±5 percentage points.

Interviews are conducted with respondents on landline telephones (for respondents with a landline telephone) and cellular phones (for respondents who are cell phone only). Each sample includes a minimum quota of 150 cell phone only respondents and 850 landline respondents, with additional minimum quotas among landline respondents for gender within region. Landline respondents are chosen at random within each household on
